Professional Experience

Junior Software Developer

Feb 2025 - Present

DTI Services

Remote, UK

- **Description:** Working within a small team operating in sprint cycles to deliver and maintain full-stack web applications.
- **Technologies:** React (Next.js, TypeScript), Node.js, PostgreSQL (via Prisma).
- **Projects:**
 - PrayerBud: A faith-based social platform enabling churches, families, and communities to share struggles, support, and prayers.
 - MassMailer: An internal Node.js tool designed to deliver large-scale marketing campaigns with controlled, gradual email dispatch.
